# HASSAN RJ

## FRONTEND DEVELOPER

Hello! I'm Hassan, a dedicated student immersed in technology. I'm expanding my expertise in cloud computing, generative AI, Web 3.0, and full-stack development. With hands-on experience at Governor House, I specialize in web development, creating compelling graphics and logos, and excelling in typing jobs. My primary focus is on programming, where I strive to innovate and excel.

## Experience

### Frontend Developer

Governor House Karac      Jan 2023 - present

As a frontend developer at the Governor's House, I create user-friendly web interfaces using HTML, CSS, and JavaScript, enhancing communication and accessibility while ensuring seamless user experiences in digital solutions.

### JavaScript & TypeScript Proficiency

Governor House Karachi      Jan 2023 - Dec 2024

Gained proficiency in JavaScript and TypeScript while developing CLI projects and publishing them on npm, enhancing my coding skills and understanding of package management.

### Graphics Designer

The Learning Zone      Jan 2022 - Dec 2023

As a graphic designer trained at The Learning Zone, I specialize in Photoshop, Adobe Illustrator, Canva, and Corel Draw. I create logos and various visual designs, enhancing brand identities.
